An Illustrated Analysis of North Carolina Traffic Crash Statistics

Information contained in this booklet has been compiled by the Traffic Records Unit and Traffic Safety Unit from 2025 crash data received prior to August 2026.

A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The N.C. Division of Motor Vehicles is committed to delivering exceptional driver and vehicle services, promoting highway safety, providing accurate and timely information, and combating fraud. Through outstanding customer service and the integrity of our records and credentials, we work tirelessly to make North Carolina's roads safer for everyone.

In partnership with the Governor's Highway Safety Program and other stakeholders, we champion initiatives to reduce motor vehicle crashes and injuries. Despite these efforts, too many drivers continue to endanger lives by disregarding traffic laws. Our 2025 Crash Facts report reveals both continued progress and ongoing challenges. Reportable traffic crashes decreased by 1.9 percent, while fatalities dropped by a solid 12 percent compared to 2024. Motorcyclist deaths dropped by 16 percent, pedal-cyclist fatalities—encompassing all non-motorized, pedaled vehicles—decreased by 18 percent, and pedestrian deaths declined by 7 percent. Speeding contributed to 22 percent of all crash fatalities, a slight increase from prior years.

These statistics are more than numbers—they reflect lives lost and families forever changed. We urge you to explore this report and understand the behaviors, such as speeding and distracted driving, that fuel these tragedies. Distractions like cell phones and navigation devices divert attention from the road, with devastating consequences.

Join us in making North Carolina's highways, bike lanes, and sidewalks safer. Share this critical message: safe driving saves lives. Together, we can reduce crashes and protect our communities.

DRIVER DISTRACTION

The National Highway Traffic Safety Administration (NHTSA) defines distracted driving as any non-driving activity a person engages in while operating a motor vehicle. Such activities have the potential to distract the person from the primary task of driving and increase the risk of crashing (http://www.distraction.gov/).

Driver Distraction is a self-reporting contributing circumstance. Therefore, the data collected may not reflect the severity of this issue. In 2025, 16% of the crashes in North Carolina involved a driver that was distracted.
